Dear Mr Fancett

NEW HOSPITAL AT CRAMLINGTON

Many thanks for your letter regarding the possibility of extending the shuttle service to Cramlington Station.

I can confirm that this is something that we are considering as we are keen to ensure that we connect to as many public transport opportunities as possible. We will be working closely with all public transport agencies over the coming 2-3 years to make sure that the site becomes more accessible from this point of view.

I hope this answers your query and many thanks for your interest in the project.

Yours sincerely

Andrea Stoker
General Manager
